BY Virtue of a Writ to me directed, will be expoſed to Sale, by publick Vendue, on Monday, the 13th of May next, at 10 o'Clock in the Forenoon, at the Dwelling-houſe of George M'Cleave, Inn-holder, in New London Townſhip, Cheſter County, a certain Meſſuage, Plantation, and Tract of Land and Premiſes, ſituate in the Townſhip of New-London, bounded by Lands of Alexander Morriſon, John Gilleſpie and George M'Cleave, containing 75 Acres, more or leſs; late the Property of Robert Gray, taken in Execution, and to be ſold by

PHILIP FORD, Sheriff.

Mr. HALL,

BY re-printing the following Piece, which was published by Mr. Dickinson *on the Day of the laſt Election, you will oblige many of your Readers, and particularly*

Your humble Servant, J. W.

LAST *Tueſday* Morning Mr. *Galloway* carried a Writing, containing ſome Reflections on me, to a Printer in this City, and deſired that he would inſert it in his next * News Paper. The Printer told him he would print it, but that he thought it very *juſt* and *reaſonable*, if his Paper publiſhed any Thing againſt me, that I ſhould ſee it firſt, and have an Opportunity of defending myſelf in the ſame News Paper, and at the ſame Moment I was attacked. To this Mr. *Galloway* utterly refuſed to conſent, and declared that he would not have it printed, unleſs it was kept a *Secret* from me.---The Printer would not agree to this Propoſal, and Mr. *Galloway* took away the Writing, and ſaid, "*he would have it done ſomewhere elſe.*"

Thus I am expoſed to the Shafts which my ungenerous Enemy ſhall pleaſe to ſhoot at me, without being allowed to defend myſelf. Something is to be publiſhed againſt me, in order to induce my Countrymen to ſhew their public Diſapprobation of me on the Day of Election; and, by the Cunning of my Accuſer, I am to ſuffer for an Aſperſion, without being permitted to anſwer it, till I have ſuffered.----All I know of this intended Attack is this----I have been informed that Mr. *Galloway* has procured, from ſome Members of the Aſſembly, a Certificate, "that he "ſpoke the *Subſtance* of his *pretended Speech* in the Houſe." ----And thus he endeavours to ſhew, that I have told a Falſhood to the Public, by ſaying in my Reply, "that he "never ſpoke a Sentence of it in the Houſe."

As I have not ſeen this Certificate, I cannot ſpeak of it with any Certainty; and therefore, if it is different from what I have heard it is, I hope every candid Perſon will pardon any Error I may commit in anſwering it.-----I underſtand the Certificate does not mention the *Day* when Mr. *Galloway delivered the* SUBSTANCE *of his pretended* Speech,----nor what the Members mean by the "*Subſtance* "of it."

The Public will pleaſe to take Notice, that there were Debates concerning the Change of Government (as Mr. *Galloway* ſays) on *Saturday*, the 24th Day of *March* laſt, when the Reſolves were paſſed.----There were Debates alſo upon the ſame Subject on *Wedneſday*, the 23d Day of *May*, when the Committee was appointed to draw up the Petition to His Majeſty;----at both which Times I was ſick, and abſent from the Houſe.

I have alſo informed the Public, in my *Reply*, that before I delivered my Sentiments in the Houſe, "I threw "out general Objections, in order to diſcover the Argu- "ments which induced the Houſe to take ſo dangerous a "Step---And that thereupon ſeveral Members, among "whom Mr. *Galloway* was one, aſſigned their Reaſons for "the Meaſure."

Theſe Reaſons were---the Injuſtice of the Proprietaries---the Miſery of this Province---the Danger from the Rioters---the great Advantage of our having a Military Force eſtabliſhed among us---that able Counſel had SAID we could have a Change, and preſerve our Privileges---that the Proprietaries had not ſo much Intereſt as they uſed to have---and that, if their Intereſt was ever ſo great, our Privileges would never be taken from us without an Act, which the Parliament would never paſs.----

Theſe Things having been mentioned by *ſeveral Perſons*, at *different Times*, and Part of them by Mr. *Galloway*, I cannot forbear thinking, that the Members who ſigned the Certificate, having heard theſe Things, and not carefully attending to the Time when they were ſpoken, nor clearly recollecting by whom, have confounded them all together, and beſtowed them upon their Friend Mr. *Galloway*,---as if ſpoken in Anſwer to what I ſaid.

But even *theſe Members* do not pretend (as I am informed) to ſay, that Mr. *Galloway* ever ſpoke in the Houſe one *Page*, or even one "*Sentence*," as I ſaid, of his *pretended* Speech.

They ſay, "he ſpoke the *Subſtance*."-----A looſe Expreſſion! to which every one of them, perhaps, annexes a different Idea.----It is not improbable that theſe Gentlemen might think themſelves juſtifiable, in giving *ſuch a Certificate* to Half the Members in the Houſe, who ſpoke in the Courſe of the Debates.

One Obſervation will ſufficiently ſhew how greatly theſe certifying Gentlemen muſt be miſtaken.----I delivered my Sentiments to the Houſe on *Thurſday*, the 24th of *May*---the Petition to the King was ſigned by the Speaker on *Saturday*, the 26th of the ſame Month----How incredible is it, that Mr. *Galloway* ſhould *immediately* have delivered the "*Subſtance*" of his pretended Speech to the Houſe---and yet ſhould ſpend † *eight Weeks* in putting it into *Form?* If he could make the *Body* or *Subſtance* in ſo ſhort a Time, it is moſt extraordinary that he could not make the *Dreſs* for it in leſs than eight Weeks.-----

One Thing more I beg Leave to mention----it is this---that theſe certifying Members muſt have the beſt Memories in the World, to be able to ſay with Certainty, what was the "*Subſtance*" of a Diſcourſe they *heard* above *Three Months* before, of which they did not take a ſingle Note.

Having ſaid thus much of this Certificate, I will now relate plainly what paſſed in the Houſe on my delivering my Sentiments; and I appeal to every Member of the Houſe, as Witneſſes of the Truth with which I ſpeak.

After I had ſpoken, Mr. *Galloway* roſe up, and having ſpoke about four Minutes, it was obſerved that the Speaker was ſo ill, that it was proper to adjourn-----The Houſe agreed to an Adjournment, and I was deſired to leave my Notes on the Table.-------I excuſed myſelf from doing that, as they were imperfect; but I ſaid I would get them ready for the Members Peruſal as ſoon as I could; and told Mr. *Galloway* he ſhould have them that Evening, if I could get them ready.

Mr. *John Roſs* declared, that I had thrown many new Lights on the Affair, and he ſhould be glad to have it more thoroughly conſidered.-----

The Houſe adjourned------Mr. *Galloway*, in the Evening, called on me for the Notes----they were not ready---next Morning I took them to the Houſe----no Perſon aſked for them;----I did the ſame in the Afternoon----no Perſon aſked for them.

The next Time the Petition was mentioned, Mr. *Galloway* ſpoke and ſaid, "it was IMPOSSIBLE to anſwer my Speech, BECAUSE I had not given him my Notes----and that it was quite UNNECESSARY to do it, BECAUSE the Members who were for a Change, intended to take thoſe very Precautions I had recommended."

Mr. *Roſs* then roſe and ſaid, "that what I had ſaid, had at firſt given him a great deal of Uneaſineſs, as I had mentioned ſeveral Difficulties and Dangers that had not before occurred to him; but that, upon conſidering the Matter ſince, he was ſatisfied that my Apprehenſions were not ſo well grounded as he had thought them, becauſe the Houſe intended to act in the cautious Manner I had recommended."

Thus IMPOSSIBLE and UNNECESSARY was it at *that Time* to anſwer what I had ſaid, or to take any more Notice of it.----It was unworthy any further Attention, till Mr. *Galloway* took it into his Head to ſet up for the Author of a Speech.-------Then his good Friends furniſhed him with the beſt Vouchers they could, to ſupport his Title as an Author----and thus the Certificate was produced. The Contents of it have been baſely concealed from me, that by its coming out unanſwered juſt before the Day of Election, it might work its intended Effect, before my Vindication could appear.

And why am I attacked with this Malice and Violence? *Becauſe* I have endeavoured, according to the beſt of my Underſtanding, in Obedience to the Dictates of my Conſcience, and in Diſcharge of *my Duty to my Country*, to preſerve the Rights and Privileges of the good People of *Pennſylvania*.

September 29. JOHN DICKINSON.

* *This News Paper was the laſt that was to be publiſhed before the Election.*

† *There were eight Weeks between the Publication of Mr.* Dickinſon's *Speech, and the pretended One.*

LONDON.

Feb. 11. It is apprehended, if the French ſhould, in conſequence of the Family Compact, ever get footing on the Spaniſh Main (which is now ſo much talked of) that Great Britain will ſoon feel the effects of it, as that reſtleſs nation can never be quiet whilſt they have power to act.

It is ſaid the Bank has offered to advance what money may be wanted, on the credit of the Land Tax and Malt Bills, at 3 and an half per cent.

We are credibly informed, the intended ceſſion of New-Orleans to the Spaniards was made known to the Britiſh Miniſtry, by order of the Court of Madrid, 18 months ago, and that, as a Spaniſh ſettlement in theſe parts, and a total removal of our antient rivals the French, from all North America, were objects equally intereſting and advantageous to the Britiſh commerce, no difficulty remained to obtain England's conſent to this exchange, but the adjuſting certain preliminaries reſpecting the liberty of trade in the Gulph of Mexico, which we hear, have been happily terminated.

Yeſterday morning ſome diſpatches of importance were ſent away to General Yorke, his Majeſty's Ambaſſador at the Hague.

It is ſaid ſome inſtructions of a very conciſe nature, were diſpatched laſt week to our Ambaſſador at the Court of Madrid.

Two of his Majeſty's yatchts are now ordered under repair, and the decorations for the apartments, &c. will be extremely grand, the pannels being now covering with various deſigns of the richeſt gilded leather.

A new ſettlement on an iſland on the coaſt of Africa, between the Streights of Gibraltar and Cape Blanco, is approved and agreed on by the Board of Trade, which, it is ſaid, will ſhortly be laid before the Parliament for their approbation.

Letters from Jamaica mention, that in conſequence of ſome late diſpatches from England, a certain number of private ſhips of war will this ſummer be fitted out, at the expence of the iſland, to act in the nature of Guarda Coſtas, under his Excellency the Governor's commiſſion, as now practiſed by the French and Spaniards.

It is ſaid the grant of an extenſive tract of land, conveniently ſituated on the borders of the Indian country, is now making out for Sir William Johnſon, where he intends to build a town, and erect fortifications, with a view of eſtabliſhing a mart of trade with the ſeveral ſavage nations in America; a ſcheme which that Gentleman's great ſkill and influence with the natives will render the more practicable.

We hear informations have laſt week been given into a certain office, upon oath, and ſupported by credible witneſſes, of no leſs than fifteen private meeting-houſes, in and about this metropolis, which have hitherto paſſed for thoſe of Diſſenters, but are, in reality, Jeſuitical ſeminaries, where the moſt dangerous doctrines are openly broached, equally tending to ſubvert the morals and allegiance of the deluded audience.

We hear there is a deſign to tranſport all our future female convicts, of a certain age, to the two Florida's, inſtead of ſending them, as hitherto, to Maryland and Virginia.

Feb. 12. The Fortifications of St. Philip, in the Iſland of Minorca, are ordered this Summer to be conſiderably augmented, and divers Materials for the building a new Town will ſpeedily be ſhipped on board ſome Government Tranſports now in the River.

Feb. 13. We are aſſured that an additional duty on Stamps is to take place in all the Britiſh colonies in America.

They write from Oſtend, that an Engliſh Meſſenger arrived there by the Packet from Dover, and ſet out immediately for Germany.

They write from Copenhagen, that the Marriage Contract between the Hereditary Prince of Denmark, and the Princeſs Caroline Matilda of England, was made public there the 18th paſt, on which Occaſion Walter Titley, Eſq; Miniſter from the Court of Great Britain, gave 100 Rixdollars to the Poor of that City.

They write from Poland, that all the Ruſſian Troops, in the interior Part of that Kingdom, were put into Motion, advancing towards Poliſh Pruſſia.

By letters from Smyrna we hear, the Governor of that place had repeatedly and wantonly oppreſſed the inhabitants to ſuch a degree, that at laſt they came to a reſolution to lay their complaints before the Grand Signior at Conſtantinople; upon which a proper officer was diſpatched to enquire into the truth of theſe complaints: When the Governor, finding he muſt undergo an examination, deſired it might be in his own houſe, where a room ſhould be prepared to hold 300 of the Inhabitants. This being agreed to, and the day fixed, they accordingly began the examination; but, before they got into the merits of the affair, the floor gave way, and fell in with all the people, by which means a great many of them were killed, and others dangerouſly wounded. The PENNSYLVANIA GAZETTE.

Containing the Freſheſt Advices, Foreign and Domeſtic.

To the Publiſhers of the PENNSYLVANIA GAZETTE.

GENTLEMEN,

YOUR inſerting the following Extract, being Part of a Letter (on the Making of Vineyards) to the Editors of a Work publiſhed in England in 1763, ſomething of which Sort ſeems abſolutely neceſſary, ſince Stamp Duties, &c. are like to become ſo faſhionable, will greatly oblige

A Well-wiſher to AMERICA.

I HAVE long thought that good Wine might be made on the Continent of North-America; the Extent of Territory we poſſeſs there is amazing, and the Diverſity of Climates ſuch, that, in more than one of our Colonies, Vines may certainly with Advantage be planted.

I own it is to me aſtoniſhing, that none but partial and puſillanimous Trials have yet been made, in this important Matter, in that Part of the World. A few Vines have, it is true, been planted, without Succeſs; but ſhould that deter others from making a more rational Trial? Experiments injudiciouſly made, are the Ruin of many good Projects; People are apt to conclude, that if an Undertaking fails of Succeſs in one Man's Hands, there is no Reaſon to hope it will thrive any better, let who will attempt it. But this is, in Truth, arguing prepoſterouſly; we ſhould found our Reaſonings and Concluſions on Facts, or at leaſt on Probabilities; a trifling Error in the Execution of an Experiment, may occaſion its not ſucceeding; therefore when we fail in our Attempts, inſtead of giving up the Undertaking, we ſhould diligently ſearch into the Cauſe of the Miſcarriage. It is well known that a moiſt rich Land is not proper for Vines; yet on ſuch Kind of Soils have Vines been generally planted in America; is it then any Wonder they ſhould not ſucceed? Some have planted Vines, and ſuffered them to run up the neighbouring Trees; but little was to be expected from this Method of planting them, as they could not enjoy the full Benefit of the Sunbeams, and they were too much expoſed to Moiſture, not only from the Dews, but from the Perſpiration of the Trees which ſupported them. Vines will grow and thrive almoſt in any dry Soil, provided they have a good Expoſure. The South-eaſtern Declivity of a Hill is a proper Situation for a Vineyard, if the Soil is light and dry. In ſuch Places (and many of them are to be found in our North-American Colonies) ſhould the Vineyards I would have planted there be made; there is no Doubt of their ſucceeding and ripening their Fruit, with proper Management; and good Vignerons might eaſily be procured, to inſtruct our Planters, both from Germany and France.

It has, I know, been urged, that the Grapes cultivated in America, are very apt to burſt before they are fully ripe; but this muſt either proceed from their having too much Nouriſhment, or from the Skins of the Grapes being moiſtened by the damp Vapour which proceeds from the neighbouring Woods. I have known when a Cherry Tree, in full Vigour, has been loaded with fine ripe Fruit, that one Night's Rain has made all the Fruit burſt: Moiſture will often have this Effect on moſt Kinds of Fruit, particularly on Cherries, Plumbs, &c.

When we know the Cauſes of a Miſcarriage in an Attempt, we of courſe know how to guard againſt it for the future. I would earneſtly recommend it to the Planters of our ſeveral Colonies to try, with proper Precautions, their Succeſs in planting Vineyards; it would be eaſy for them to procure Cuttings from the beſt Vines which grow on the Banks of the Rhine and Moſelle; theſe would thrive well in Virginia, Pennſylvania, North-Carolina, New-York, and the Province of Maſſachuſetts; and able Vignerons, for the Purpoſe of dreſſing the Vines, might probably be got, on moderate Terms, from among the Germans ſettled at the Back of Virginia and Pennſylvania; and if not, many in Germany would be glad to remove.

As to the Southern Colonies, Maryland, South-Carolina, Georgia, Florida and Louiſiana, I would recommend that Cuttings from the Madeira Vines be planted. We might, in Time, perhaps, be able to make as good Wines, of different Sorts, as we are ſupplied with from the South of France; and that this would be a great commercial Object, I need not obſerve; how great could ſcarcely be computed. Frequent Complaints are made, that our North-American Colonies encroach on our Manufactures; I have myſelf been informed that they make very good Hats there; and could we reaſonably blame them, were they to make all the Linen and Woollen Goods they could conſume? The Ballance of Trade is already againſt them, and was it not for the Lumber Trade they carry on with the Weſt-India Iſlands, they could never make good their home Contracts. It is certainly our Duty, here in England, to give them all poſſible Encouragement to ſet up ſuch Manufactories as will not interfere with our foreign Trade; and it would be for our Advantage, were they to ſupply us with ſuch Articles as we are obliged to fetch from France, Germany, &c. A great deal of Money is annually carried out of the Kingdom, to pay for French and German Wines; why then ſhould we not conſult our Intereſt as a Nation, and encourage the Growth of Vines in America? I would recommend all poſſible Encouragement to be given for planting them in that Continent: One great Temptation will be, that when once a Vineyard is properly planted, it will, if duly attended, and carefully managed, laſt 150 Years, without the Wine produced from it being lowered in its Quality. (In ſome Parts of Italy they reckon a Vineyard which has not been planted 100 Years to be young. In Chianti a Vine of 100 Years of Age is accounted young; the Vines there laſt above 300 Years, and in other Parts of Italy, commonly 140) This is indeed an Encouragement, ſuch an Encouragement, that I hope ſoon to hear of many Vineyards being planted in that Part of the World. Were the Colonies in North-America to take to making Wines, we ſhould ſoon have them in great Perfection from thence, and it would prevent their interfering with any of our Engliſh Manufactures; on the contrary, the Profit ariſing from the Sale of their Wines, would enable them to purchaſe all their neceſſaries from England, which it is now out of their Power to do, they are therefore obliged to make them at home. This is not the only Advantage that would be derived to us from Vines being planted and cultivated in North-America; for they could, in that Caſe, ſupply us with dried Fruit for our home Conſumption, which is annually imported in very large Quantities from the Levant.

I know but one Way to encourage the planting of Vineyards, and making Wines in America; which is, to grant a Bounty on the firſt Thouſand Pipes of good Wine, which ſhould be imported from any of our North-American Colonies, being made from Grapes which were the Growth of thoſe Colonies; ſuppoſe this Bounty was to be 30l. a Pipe, I own I ſhould think 30,000l. of the Publick Money very well laid out in this Manner, as in all Probability there would be many Competitors, and long before the 1000 Pipes were imported, there would be many Vineyards planted, and in a Way of producing annually Plenty of excellent Wine.

A Friend to ENGLAND and her COLONIES.

MENTZ, January 5.

TO what a degree wickedneſs may be practiſed, the following tragedy will inform us. A Shoemaker of this place, whilſt he was meaſuring an innocent country girl's foot, taking ſome harmleſs liberty with her, was perceived by his wife. A few days afterwards the girl came for her ſhoes, when unfortunately the man not being at home, the wife, full of jealouſy and revenge, took a knife, and inſtantly cut the unhappy girl's throat; after which ſhe carried the body up into the garret, where ſhe cut off her breaſts, and dreſſed them for her huſband's dinner; who when he came home, eat with an uncommon appetite what his wife had provided him, and aſked her where ſhe got that delicious meal? To which ſhe anſwered, Eat your fill, and be contented therewith, know they are the breaſts of the curſed country girl you would have enjoyed; if you go into the garret, you may there have your will of her; the deſpairing huſband haſtened thither, and with the ſame knife which was reaking with the blood of the murdered girl, ſtabbed his wife to the heart; after which he made a voluntary ample confeſſion of this whole tragedy, and gave himſelf up to juſtice.

Ratiſbon, Jan. 31. We learn nothing here for certain concerning the Diviſions which reign between the Duke and the States of the country of Wirtemberg. We know only, that the Miniſters of the Courts of Vienna, Berlin, and Copenhagen, ceaſe not to ſeek out the moſt proper expedients to terminate theſe diviſions to reciprocal ſatisfaction. In the mean time, the two latter give themſelves, by their repreſentatives, all the movements poſſible, to maintain the States in their prerogatives and immunities, and to prevent the eccleſiaſtical revenue from being employed to other uſes, than thoſe which they were deſigned for.

Laſt Saturday Mr. Daniel M'Carthy, Sub-Sheriff of the County of Corke, went with five aſſiſtants, by virtue of his Majeſty's Writ of injunction upon a Cuſtodium, to take poſſeſſion of the lands of Fuller's park, in the ſaid county, where he was oppoſed by a riotous mob (ſome in arms) when the Sheriff and his men, for the ſafety of their own lives, were obliged to fire at them, but not till after the mob fired at his party, by which one Carthy, the ringleader, was killed, and ſeveral wounded. One of the Sheriff's men was dangerouſly wounded.

We hear from the county of Tipperary, that on the 5th inſtant, two perſons were committed to the goal of Clonmell, on the information of a woman (70 years of age) for being concerned with 5 or 6 others, in breaking into her cabin, a few nights ago, and dragging her out of bed, almoſt naked, a quarter of a mile, to others of their aſſociates, who carried her above a mile to a Farmer's yard, when one of the priſoners laſhed her unmercifully with a ſtrong whip, until weary of ſlow torture, he turned the but end, and knocked her down, and on her recovering, forced her to walk to the Ford at Abby, and as ſhe was unable to walk faſt, they quickened her pace by repeated laſhes; at which place they ducked her almoſt to death; they then tied her to a gate, with her hands behind her, and a rope about her neck, leaving her to periſh by the wounds they had given her, and the inclemency of a winter's night.

Extract of a letter from Cadiz, Jan. 15.

"Capt. Charles Hudſon, Commander of the Engliſh ſloop the Vulture, has finiſhed his quarantine here. From him we have the following account. That officer, in the month of October laſt, had orders to repair to Mogador with preſents for the Emperor of Morocco, who received him very graciouſly. At his arrival he was ſaluted by a hundred cannon from the forts of the iſland, where he ſaw 5000 men employed on the fortifications, under the direction of a Neapolitan and a Portugueſe Renegado; and beſides the cannon which were then at Mogador, a great number was ſtill expected from Fez and Mequinez. The Mooriſh Prince came in a canoe to examine the Engliſh ſloop, which he did very attentively on the outſide, but did not chuſe to go on board. Capt. Hudſon ſtaid 20 days in that port. The Portugueſe Renegado had refuſed the command of a ſhip of 50 guns which the Emperor of Morocco offered him, and deſired in preference, and as a better ſailer, a xebeque of 24 guns, with which he was to go out on a cruize in a ſhort time."

PROVINCE of QUEBEC.

By his Excellency the Honourable JAMES MURRAY, Eſq; Captain General, Governor and Commander in Chief, in and over the ſaid Province, and Vice Admiral of the ſame, &c.

A PROCLAMATION.

WHEREAS the King, by his Royal Inſtructions, has commanded me to iſſue a Proclamation, to make known the Terms and Conditions on which all Perſons may obtain Grants of Lands in the ſaid Province: I DO, in Obedience to his Majeſty's ſaid Inſtructions, iſſue this my Proclamation, and make known to all Perſons that they may on Application to me in Council at Quebec, obtain Grants of Land in the ſaid Province in the following Quantities, and on the following Terms and Conditions.

That One Hundred Acres of Land will be granted to every Perſon, being Maſter or Miſtreſs of a Family, for himſelf or herſelf, and Fifty Acres for every white or black Man, Woman or Child, of which ſuch Perſons Family ſhall conſiſt, at the actual Time of making the Grant; and in caſe any Perſon applying as aforeſaid, ſhall be deſirous to take up a larger Quantity of Land than the Family Right entitles ſuch Perſons to, upon ſhewing a Probability of Cultivation, an additional Number of Acres, not exceeding One Thouſand, may be obtained, upon paying the Receiver of the Quit Rents, the Sum of Five Shillings Sterling, for every Fifty Acres of ſuch additional Grant, on the Day of the Date of the ſaid Grant.

That all Grants be ſubject to the Payment of Two Shillings Sterling for every Hundred Acres, to commence at the Expiration of Two Years, from the Date of ſuch Grant, and to be paid yearly and every Year; or in Default of ſuch Payment, the Grant to be void.

That in all Grants of Land to be made, Regard will be had to the profitable and unprofitable Acres, ſo that each Grantee may have a proportionable Number of one Sort and the other; as likewiſe that the Breadth of each Tract of Land, be one third of the Length of ſuch Tract; and that the Length of each Tract do not extend along the Banks of any River, but into the main Land; that thereby the ſaid Grantees may have each a convenient Share of what Accommodation the ſaid River may afford, either for Navigation or otherwiſe.

That all Perſons on fulfilling the Terms of their firſt Grant, may have a further Grant of the like Quantity of Lands, on the Terms and Conditions aforeſaid.

That for every Fifty Acres of plantable Land, each Grantee ſhall be obliged within three Years after the Date of his or her Grant, to clear and work three Acres at leaſt, on that Part of his of her Tract which he or ſhe ſhall think moſt convenient or advantageous, or elſe to clear and drain three Acres of ſwampy or ſunken Ground, or drain three Acres of Marſh, if any ſuch be within his or her Grant.

That for every Fifty Acres of Land accounted barren, every Perſon ſhall be obliged to put on his or her Land, within three Years after the Date of his or her Grant, three Neat Cattle, which Number every Perſon ſhall be obliged to continue on his or her Lands, till three Acres for every Fifty be fully cleared and improved.

That if any Perſon ſhall take up a Tract of Land, wherein there ſhall be no Part fit for preſent Cultivation, without manuring and improving the ſame, every ſuch Grantee ſhall be obliged, within three Years from the Date of his or her Grant, to erect upon ſome Part of his or her Land, one good Dwelling Houſe, at leaſt Twenty Feet in Length, and Sixteen Feet in Breadth; and alſo put on his or her Land, the like Number of three Neat Cattle for every Fifty Acres.

That if any Perſon who ſhall take up any ſtony or rocky Grounds, not fit for Culture or Paſture, ſhall within three Years after paſſing his or her Grant, begin to employ thereon, and ſo continue to work for three Years then next enſuing, in digging any Stone Quary, or other Mine, one good and able Hand for every Hundred Acres of ſuch Tract, it ſhall be accounted a ſufficient Cultivation and Improvement.

That every three Acres which ſhall be cleared and worked as aforeſaid, and every three Acres which ſhall be drained as aforeſaid, ſhall be accounted as ſufficient Seating, Planting, Cultivation, and Improvement, to ſave, FOR EVER, from Forfeiture, Fifty Acres of Land, in any Part contained within the ſaid Grant; and the Grantee ſhall be at Liberty to withdraw his or her Stock, or to forbear working in any Quarry or Mine in Proportion to ſuch Cultivation and Improvement as ſhall be made on the plantable Lands, or upon the ſwampy or ſunken Grounds or Marſhes, which ſhall be included in the ſame Grant.

That when any Perſon who ſhall hereafter take up and patent any Land, ſhall have ſeated, planted, and cultivated, or improved the ſaid Land, or any Part of it, according to the Conditions and Directions above mentioned; ſuch Patentee may make Proof of ſuch Seating, Planting, and Cultivation, or Improvement, in any Court of Record in the ſaid Province, or in the Court of the County, Diſtrict, or Precinct where ſuch Lands ſhall be; and have ſuch Proof certified to the Regiſter and Office, and there entered, with the Record of the ſaid Patent: A Copy of which ſhall be admitted on any Trial, to prove the Seating and Planting of ſuch Lands.

AND WHEREAS this Province has been repreſented barren, and incapable of Improvement, from the Length and Severity of the Winter, it becomes neceſſary in this Proclamation to remove theſe Errors.

The Lands in general are fertile, producing Wheat, and every other European Grain, at the Rate of Ten for One, from the Canadian Culture, which is perhaps the worſt that is practiſed by any civilized People.

The Meadows in a State of Nature, yield amazing Quantities of Hay; and the Droughts, ſo frequent in the more Southern Colonies, are not known here.

The Froſt and Snow ſo much dreaded by thoſe who are ignorant of their Effects, yield a peculiar Happineſs to this Province: they not only contribute to fertilize the Earth, but they certainly render Land-Carriage three Fourths cheaper here, than in other Countries; hence none of the Colonies are in a Situation to vie with this in the Articles of Lumber, Potaſh, Iron, and Ship Timber, as the whole Country abounds with the proper Materials; and is, every where, interſected with Rivers capable to convey them to the Great River St. Lawrence, the Navigation of which River is now known to be eaſy and ſafe; And the Advantages which the Lower Parts of it afford to Adventurers in the Whale and Cod-Fiſhing, ſhould induce them to ſettle in the Bays of Gaſpey, Chaleur, and Places adjacent.

The Seven Iſlands, where there is an excellent Harbour, are alſo convenient for Fiſhing Eſtabliſhments.

Nature has beſtowed more than an equal Share of the Furr Trade upon this Province. The populous Towns of Quebec and Montreal, afford Markets for every Thing the induſtrious Farmer can raiſe: And it may be aſſerted that the Air of the Province of Quebec, is as healthy as any under the Sun; for in no Country do People live to a greater Age, with more uninterrupted good Health.

GIVEN under my Hand, and the Great Seal of the Province, this firſt Day of March, in the Year of our Lord One Thouſand Seven Hundred and Sixty-five, and in the Fifth Year of his Majeſty's Reign.

J. MURRAY.

By His Excellency's Command,
J. GOLDFRAP, D. Secry.

GOD Save the KING.

VIENNA, February 2.

AMONG other rejoicings in honour of the marriage of the King of the Romans, 25 young couple were married laſt Wedneſday at St. Stephen's church, and the Empreſs Queen gave portions to all the young women. The new married people afterwards walked in proceſſion, attended by their neareſt relations, and accompanied with bands of muſic, through the great Court of the palace, where their Majeſties took a view of them from the windows; after which they were carried in fifty coaches to the places where they were to celebrate their nuptials.

Cork, Jan. 17. Tueſday night (by the inceſſant rains) we had the greateſt flood ever known before here; all Hammond's marſh was entirely overflowed, in many parts upwards of 5 feet high, to the great terror of the inhabitants, who ſuffered conſiderably thereby; but, thanks be to God, we hear of no lives loſt. Happily North Bridge ſtood the great torrent of water, notwithſtanding the many beams which were drove againſt it, which were ſwept away from the timber yards. On one part of Hammond's marſh two gentlemen lay together; one of them finding himſelf wet in bed, charged the other with indecency, which he immediately retorted back in the ſame language; they were both ſo enraged at each other that blows enſued, which was immediately terminated by their both tumbling out of bed into near 3 feet water. One of the wheels, belonging to the tin mills at Sunday's Well, was brought down the river to Goold's marſh. Blackpool bridge is conſiderably damaged.

The accounts from the country are likewiſe very diſmal; at Bandon, the bridge, market-houſe and ſhambles, were ſwept away. Inneſhannon, Brinny, Faur, and Dripſy bridges, were carried away, with a great many others; and it is computed the damage done will require at leaſt 10,000 l. to make it good.

Edinburgh, Feb. 6. Friday laſt a Girl, who had been Kitchen-maid to a farmer about 12 miles ſouth of this city, and had left in her maſter's hands 13 s. 4d. of her wages, called for her money, which her maſter paid her in preſence of a beggar. The Girl ſet out, but had not gone far, when ſhe was ſeized by the beggar; and, frightened with his threats, the poor Girl delivered the 13 s. but the beggar inſiſted for the 4 d. which the Girl threw on the ground, and took an opportunity of ſnatching one of his crutches, with which ſhe ſtruck him ſo violently, that he fell down dead. Terrified at what ſhe had done, ſhe left the place, without attempting to recover the money. In this ſituation, a Gentleman riding that way met her; and the manner in which ſhe told her tale, induced the gentleman, with his ſervant, to go to the ſpot, where they found the thing exactly as repreſented. Twenty guineas were found about the robber and beggar.

LONDON.

Feb. 18. By a private letter from Leghorn, we are aſſured, that a little Malteſe veſſel, with four men and a boy, were attacked in the Mediterranean, by a Barbary corſair of ten guns and fifty men; the Malteſe had nothing more than 2 guns, and a couple of muſquets, yet heroically preferring death to ſlavery, they reſolved to ſtand upon the defence, as there was no probability of making an eſcape. Determined however to ſell their lives as dear as they could, upon the firſt ſummons they ſtruck, and deſired the Corſairs to come on board; the Barbarians, all intent on plunder, crouded with the utmoſt expedition into their boat, leaving ſcarcely five hands to manage their own veſſel, and rowing off for the pink. By this time the Malteſe had charged their two guns, and placed both on the ſame ſide, and waiting till they had brought them to bear almoſt perpendicularly upon the boat, let fly with ſo fortunate a nicety, as not only to do conſiderable execution upon ſeveral, but to overſet the whole. The conſternation this occaſioned on board the Corſairs is incredible; the few that had remained, unable to work their ſhip, aſſiſt their companions, and fight for themſelves, all at once, thought of nothing but ſelf preſervation, and ſheered immediately off; The Malteſe, proud of the opportunity, followed the ſame example, fearing to take any of their enemies up, leſt they ſhould be overpowered, and arrived at Malta, to the aſtoniſhment of their countrymen, without meeting with any further accident. Whether any of the Corſairs were ſaved, is not known, but it is ſuppoſed they all periſhed, as they were a conſiderable way from the ſight of every land, and had no great probability of meeting with any veſſel time enough to afford them the ſmalleſt relief.

Feb. 22. They write from Peterſburgh, that a company of French merchants had lately obtained her Imperial Majeſty's permiſſion to form a ſettlement on the River Baical, in the province of Siberia, with a view of dealing largely in the fur trade; the duties to be paid her Majeſty on ſkins having been previouſly ſettled.

Feb. 26. They write from Hannau, that her Royal Highneſs the Landgravine, and the Hereditary Prince of Heſſe, were ſponſors to a rich Jeweſs, who was baptized there on the 10th inſtant, in the reformed church.

A few days ago died at Wexford in Ireland, Mr. Charles Hoare, aged 119 years.

Friday the 8th inſt. a journeyman bruſhmaker, of ſo low ſtature, that he is commonly in deriſion called the Town Steeple, was married here to a young girl, alſo of the pigmy ſize. The bridegroom and bride both together meaſure 5 feet 8 inches in heighth, and much about the ſame in breadth. The nuptials were celebrated with a good deal of mirth.

It is ſaid, ſeveral experienced Engliſh officers of the marine corps, will ſpeedily embark for Liſbon, at the deſire of the King of Portugal, to have commiſſions in the new raiſed regiments on that eſtabliſhment.

We hear that ſome experienced aſſayers will ſoon be appointed to embark for North-America, to make inſpection into the ſtate of ſome new diſcovered mines in that country, particularly at the back of the province of S. Carolina, which are ſaid to be valuable.

Feb. 28. They write from Paris, that the duty laid on the exportation of rabbit ſkins and rabbit fur, from that kingdom, is ſo high as to amount, in a manner, to a total prohibition.

Captain Hommes of a Dutch ſhip from Dunkirk, arrived in the Texel, reports, that in his paſſage in the channel of Rye, he was boarded from two large Engliſh open boats, with ſix hands on board each, who robbed him of a watch, a caſk of butter, 102 French livres, 26 Dutch gilders, and other effects.

It is reported, that a certain noted bruiſer, who lately went over (on high encouragement) to Ireland, to fight a boxing match for a conſiderable ſum, after beating his antagoniſt, went to drink a glaſs with him as uſual on ſuch occaſions, when the other took the opportunity of ſtabbing him in the belly with a claſp knife, of which wounds in a few hours after he expired.

Public notice has been given at Paris, that 12,000 livres are depoſited with the receiver-general of the finances of the generality of Soiſſons, to be given as a reward to any one who ſhall prove, in the ſpace of ſix years, from the firſt of this preſent February, that a perſon inoculated has had the ſmall-pox a ſecond time.

It is reported, that the exportation of malt liquor to foreign parts, will be ſubjected to certain reſtrictions and limitations.

Laſt night the Society of Arts, &c. in the Strand, gave a bounty of 100 l. to a poor Tanner at Battle in Suſſex, for diſcloſing his invention for the improvement of the Tanning buſineſs. This man has been kept in town ſeveral months, at the expence of the Society, to give ſatisfactory proofs of the uſefulneſs of his diſcovery, which he has done to the moſt ſkilful Tanners and Curriers in town, who declared the ſkins tanned by him were better leather than moſt that are ſold in Leadenhall-Market, though they had been tan-pit but two thirds of the uſual time. They were tanned with oak ſaw duſt only. This diſcovery has ſet the tanners to contrive engines for reducing to powder ſmall pieces of oak, which will greatly reduce the price of the bark, till now a very valuable commodity, on account of the great demand for it, and ſmall quantity to be obtained, not one of the many contrivances to ſupply its place for ſeveral years paſt having anſwered any good purpoſe. From the above experiments ſome think the oak-duſt is more effectual in tanning leather, than the bark itſelf.

Feb. 29. On Friday his Majeſty was pleaſed to iſſue a proclamation, requiring paſſes, formerly granted to ſhips and veſſels trading in the way of the cruizers belonging to the Governments on the coaſt of Barbary, to be returned into the office of the Admiralty of Great-Britain, before the 1ſt of February 1766 (except ſuch paſſes as have been granted to ſhips gone or going to the Eaſt-Indies, or other remote voyages, where they cannot be timely furniſhed with new paſſes; and that in ſuch caſe the paſſes of the preſent for to continue in force for two years, from and after the ſaid 1ſt of February 1766) and other paſſes, of different forms, to be iſſued.

Extract of a Letter from Paris, dated Feb. 15.

"The Parliament have iſſued two arrets, by which the Pope's late bull in favour of the Jeſuits, and his three briefs, addreſſed to the Biſhops of Grenoble, Alais, and Angers, are ſuppreſſed; and no bulls or briefs are for the future to be accepted, unleſs they are accompanied by the King's letters-patent.

"The trial of General Lally, who commanded in chief in India when Pondicherry was taken, goes on with ardour; but it is ſuch an intricate affair, that it is impoſſible to judge how long it will be before it is finiſhed.

"The inhabitants of St. Domingo, among their other complaints exhibited againſt the Count d'Eſtaing, charge him with having extorted from them five millions to excuſe them from the national militia, and to which, nevertheleſs, he afterwards wanted to ſubject them."

Letters from Drontheim in Norway, by way of Copenhagen, mention, that from Chriſtmas-day till the Epiphany the cold had been ſo exceſſive, that ſeveral people had abſolutely died through the ſeverity of the weather.

CHARLES-TOWN (South-Carolina) April 20.

Extract of a letter from a gentleman in London, to his friend in Charleſtown, dated Feb. 8.

"After ſeveral meetings and conſultations of the agents for the colonies, as to the mode and meaſure of oppoſition to be given to the ſtamp bill, all of them having inſtructions to ſuggeſt the rights and privileges of the colonies, and to diſpute (as it were) the power of parliament, it became neceſſary for thoſe agents, who were not in parliament, to learn if Petitions diſputing that power would be received in the houſe: In the mean time, if poſſible to ward off the intended blow, as moſt of the colonies had ſignified their inclination to aſſiſt the mother country upon proper requiſitions from hence, though at preſent labouring under a heavy debt, it was agreed, that it might have a good effect to have that inclination made known to the adminiſtration: For that purpoſe, Mr. Garth, Doctor Franklin, Mr. Jackſon, and Mr. Ingoldſell, were deſired by the reſt of the agents to attend the chancellor of the exchequer, who aſſured them of his readineſs and deſire to purſue ſuch meaſures only as might give univerſal ſatisfaction; but that he was bound in honour to parliament, to call for the reſolution of laſt year, and to propoſe to the houſe the carrying into execution a ſtamp duty in all America; adding, if the houſe ſhould think on any other method of procuring aſſiſtance from America, more eligible, he ſhould not object to it.

"Accordingly upon the 6th inſt. he propoſed to the committee of ways and means, the meaſure the houſe by their reſolution of laſt year, thought might be proper and neceſſary, that of charging ſtamp-duties in America. The argnments urged, tended to prove, that the colonies were all virtually repreſented in parliament, in the ſame manner as thoſe of the ſubjects in Great-Britain, who did not vote for repreſentatives; ſundry acts of parliament were recited, that had from time to time been enacted, impoſing duties on the American ſubjects; that there could not be a diſtinction between the powers of legiſlation and taxation; accounts were produced of the ſeveral ſums raiſed by each colony on the continent, and in the Weſt-Indies, towards defraying their reſpective civil eſtabliſhments, in the whole amounting to £75,000 per annum, or thereabouts; there were likewiſe ſtated accounts of the ſeveral debts the colonies ſtood charged with at preſent, amounting in the whole to about £900,000 ſterling, all of which would be paid off before the year 1769; that therefore it was but reaſonable the colonies ſhould contribute at leaſt to take off that part of the burthen from the mother country which concerns the protection and defence of themſelves: The power of parliament was aſſerted, and ſo univerſally agreed to, that no petition diſputing it will be received. The advocates for the colonies therefore choſe to take the ſenſe of the houſe upon a queſtion for adjourning; Mr. Alderman Beckford moved it, ſeconded by Sir William Meredith, they divided the committee about midnight, but it was carried againſt them by 245 to 49."

WILLIAMSBURG, April 19.

A Gentleman has favoured us with the following account of one Thomas Vance, of Cheſterfield county, about 6 or 7 miles from Peterſburgh, who is very remarkable for his age, he being certainly the oldeſt man in America. He was born in London (the year or month he does not know) but from all circumſtances he muſt be at leaſt 125 years old. He ſerved as an apprentice 7 years to a taylor in that city, ſome time after which he came over to Virginia, and ſettled in the lower part of the colony, when he carried on his buſineſs until obliged to remove for fear of being preſſed by Bacon into his ſervice. After removing into ſeveral counties, he at laſt ſettled and married; and by his wife has ſeveral children, and great great grandchildren. He is now alive, and in perfect health, and has ever enjoyed all his ſenſes, with the uſe of his limbs, until within theſe few years, when he loſt his eye ſight.

The Harriot Packet Boat, Capt. Robinſon, which ſailed from New-York the 31ſt of January laſt, arrived at Falmouth in 23 Days.

A Letter from London, of a late Date, ſays, "The Minority is reduced to nothing. Pitt's bad Health has quite diſabled him."

May 6. Laſt Wedneſday Mr. Vans arrived at Marblehead in a Fiſhing Schooner from the Iſle Sables, on which Iſland he was caſt away on his Paſſage from Newfoundland, bound to N. England, the 18th of November laſt; where he, together with the Veſſel's Crew, conſiſting of 13 Perſons, remained till the 16th of April, in the greateſt diſtreſs for want of Proviſions, being reduced when they were caſt aſhore, only to 4 Biſcuit each Man, 15 wt. Beef, and about 6 wt. of Flour, which turned out only one Spoonful a Day. During the above Time, they lived chiefly on Seal and Horſe fleſh without any Salt. The Method they took to catch the Horſes was digging Pits, and driving them in, otherwiſe they muſt have periſhed. They had no Ammunition, or might have killed wild Beaſts enough. The 4th of April being moderate Weather, and the Meat beginning to ſtink, the Maſter, Mate and 3 Hands, took their Boats, in order to puſh for the firſt Land, but were not heard of 12 Days afterwards; and if they are not arrived at Halifax, it is feared they are loſt. All the Firewood they had during the Winter, was the Pieces of the Wreck as they drove aſhore.

One Day laſt Week an Experiment was made to recover a young Kitten to Life, which had been drowned in a Tub of Water, and to all Appearance dead above half an Hour: It was performed by only laying it before a Fire, and covering it over with common Salt, rubbing it gently over the Body for ſome conſiderable Time, upon which it began to revive, and the rubbing being continued, ſtretched out its Paws one after the other, and upon vomiting up a Quantity of Water, recovered ſo as to crawl about and make a Noiſe, and being carried to its Dam, ſucked and appeared as well as ever.

Extract of a Letter from a young Gentleman at Georgia.

"Agreeable to your Deſire, I have been to ſee Mr. Whitefield's Orphan-Houſe, and will as near as I know give you a Deſcription thereof. It conſiſts of four elegant Fronts, with a Piazza all round, a very neat Chapel in it, two very handſome Parlours, and Chambers over them, for Mr. Whitefield's own Uſe; it has on the ſame Floor with his Chambers four others very handſome; there is a genteel Dining-Hall for the Orphans on the Ground Floor, and a ſmall neat well choſen Library, principally Books of Divinity. The other Story is a long Range of Chambers, commodious for the Orphans, with good Feather Beds: About 40 Yards from the Houſe is the School, a neat ſmall Building, the Stables, Store houſes and Negroe Houſes: There is the moſt elegant Garden in the Country, which is before the Front which faces the Road: The Parlours and Chambers are all very handſomely furniſhed with Pictures, all at the Expence of Mr. Whitefield: It is governed by two Gentlemen of Mr. Whitefield's appointment, who are Preachers without Orders, and the Morning Service is that of the Church of England, and the Evening Preſbyterian: One of the Gentlemen has the Care of the Plantation in the Week, and the other of the School.---This Plantation produces 150 Caſks of Rice yearly, beſides Boards, and Silk, worth about One Hundred and Sixty Pounds Sterling; alſo Indico, to the value of 150 l. Sterling more. All Strangers on a Viſit are entertained very handſomely gratis. But at preſent it can ſcarcely be called an Orphan-Houſe, as there are but 5 Boys therein, Mr. Whitefield having put all out that were fit, when he was here laſt: He has now given it to the Province of Georgia for a College, together with 2000 l. to be laid out in ſome additional Buildings for Lodgings to the Scholars, with a Reſerve to himſelf of appointing 10 poor Youths as Servitors to the reſt, and to be educated with them.---Mr. Whitefield, when here laſt, had it atteſted on Oath by the Tradeſmen's Bills that built the Orphan-Houſe, it coſt him 12,800 l. ſterling. Many ſenſible People ſay that if it had not been for this Houſe, the Province would have been deſerted; for the new Settlers (poor People) had recourſe here after their Work was done to good Lodgings and Proviſions on free Coſt. On the whole I think it does Mr. Whitefield great Honour, and far ſurpaſſes any Idea of Him."---

NEWPORT, May 6.

The Maſter of a Whaling Veſſel, who arrived here laſt Saturday from Dominica, informs, That on the 5th ult. he put into that Iſland, and juſt after he had anchored, was ſurprized with a violent Motion of the Veſſel, which made him imagine ſhe had ſtruck, but the Depth of Water convinced him it muſt be an Earthquake: That he went aſhore the next Day, and was informed by a Frenchman, that for two Months the Inhabitants had been almoſt continually under the Horrors of repeated Earthquakes: That he (the Maſter) believes he was ſenſible of not leſs than 150 Shocks while he was on Shore: That on Monday the 8th he ſailed for St. Kitts, and the Friday following was not only informed by one Mr. French, of that Iſland, but read in the St. Kitts Paper, that on Wedneſday the 10th the Windward Part of the Iſland of Dominica, ſaid to be about one half, was entirely ſunk or ingulfed in the Ocean, together with the Inhabitants belonging thereto; but the Number of the People we cannot aſcertain.-----Dominica is one of the Caribbee Iſlands, but little cultivated, lies 28 Miles North of Martinico, and 146 N. W. of Barbados, inhabited chiefly by French. It was ceded to Great-Britain by the laſt Treaty of Peace.

May 9. Yeſterday arrived the Ketch Mercury, Captain Kennedy, in 30 Days from Penſacola. We hear he brings Advice that they have there given over the Expectation of the Spaniards coming to New-Orleans.

On Friday Morning laſt, one Godfrey Swan, a Taylor, ſaid to be one of the beſt Workmen in Town, an induſtrious ſober Man, and in good Circumſtances as to his Subſtance, but who has for ſome Time been under a melancholy Diſorder, of a religious Kind, fearing he ſhould not be ſaved, and has made ſeveral Attempts upon his own Life, took the Opportunity, while his Wife was at Market, to murder his Son, an Infant about three Months old, which he took from the Cradle, and laying it on his Left Arm, with its Head in his Hand, cut its Throat with a Pen-knife. The Neighbours being alarmed, found him with the murdered Child in his Arms. He ſeemed not at all ſurpriſed, deliberately wiped his bloody Hands and the Pen knife, and ſhutting it, put it into his Pocket. He readily owned the Fact, ſaid he had long been greatly diſtreſſed, and weary of Life; that he had made many attempts to deſtroy himſelf, but his Heart failed him; and he had taken this Method, that he might die by the Law, and hoped God would have Mercy on his Soul. He talked very religiouſly, and except on the particular Subject of his Uneaſineſs, very ſenſibly. He was immediately committed to Gaol, and ſecured ſo as to prevent him from deſtroying himſelf. It was conjectured by ſome that his Diſorder might ſpring from ſome Domeſtick Uneaſineſs, and he was aſked, if he lived in good Harmony with his Wife.---He replied, that he never had any Difference with her, ſhe was a good Woman----and he expreſſed Pity for her Diſtreſs. He was carried to Goal before ſhe came Home. When ſhe heard of the Diſaſter, ſhe was in the Street, and fainted away. The Jury brought in their Verdict Wilful Murder.

Since inſerting the above Account we have ſeen the Unhappy Man's Confeſſion, made and ſigned by himſelf before the Coroner's Jury, which is in nothing materially different from the above.

He declares, that having concluded to deſtroy himſelf, and reflecting that the Child might hereafter be reproached on his Account, he had formed the Deſign of preventing that, and procuring his own Death, by killing the Child; and that he had once mentioned this to his Wife. That as he was at Work ripping a Coat with a Penknife, and ſeeing the Child ſtir in the Cradle, no other Perſon being preſent, he thought it a fit Opportunity to execute his

Purpoſe, which having done as above, he held the Child ſo that it might bleed freely, and die eaſily. He further declared, that his Diſcontent and Wearineſs of Life, was occaſioned by Diſappointment and Croſſes in Buſineſs.---But it does not appear that he had met with any ſuch Croſſes.

EAST-FLORIDA.

By His Excellency JAMES GRANT, Eſq; Captain General, Governor and Commander in Chief in and over the ſaid Province, and Vice Admiral of the ſame,

A PROCLAMATION.

WHEREAS the King, by his Royal Inſtructions, has commanded me to iſſue a Proclamation, to make known the Terms and Conditions, on which all Perſons may obtain Grants of Lands in the ſaid Province.---I DO, in Obedience to his Majeſty's ſaid Inſtructions, iſſue this my Proclamation, and make known to all Perſons, that they may, on Application to me in Council, at St. Auguſtine, obtain Grants of Lands in the ſaid Province of Eaſt-Florida, in the following Quantities, and on the following Terms and Conditions.

That One Hundred Acres of Land will be granted to every Perſon, being Maſter or Miſtreſs of a Family, for himſelf or herſelf, and Fifty Acres for every white or black Man, Woman, or Child, of which ſuch Perſon's Family ſhall conſiſt, at the actual Time of making the Grant; and in caſe any Perſon applying as aforeſaid, ſhall be deſirous to take up a larger Quantity of Land, than the Family Right entitles ſuch Perſons to, upon ſhewing a Probability of Cultivation, an additional Number of Acres, not exceeding One Thouſand, may be obtained, upon paying to the Receiver of the Quit Rents, the Sum of Five Shillings Sterling, for every Fifty Acres of ſuch additional Grant, on the Day of the Date of the ſaid Grant.

That the Quit Rents of the Lands granted in this Province, are to be One Halfpenny per Acre, payable to his Majeſty, his Heirs and Succeſſors, yearly, on the Feaſt of St. Michael, or within Fourteen Days of the ſame; to commence on the firſt Feaſt of St. Michael, which ſhall happen two Years after the Date of the Grant.

That in all Grants of Land to be made, Regard will be had to the profitable and unprofitable Acres, ſo that each Grantee may have a proportionable Number of one Sort and the other, as likewiſe that the Breadth of each Tract of Land, be one third of the Length of ſuch Tract; and that the Length of each Tract do not extend along the Banks of any River, but into the main Land, that thereby the ſaid Grantees may have each a convenient Share of what Accommodation the ſaid River may afford, either for Navigation or otherwiſe.

That all Perſons on fulfilling the Terms of their firſt Grant, may have a further Grant of the like Quantity of Lands, on the Terms and Conditions aforeſaid.

That for every Fifty Acres of plantable Land, each Grantee ſhall be obliged, within three Years after the Date of his or her Grant, to clear and work three Acres at leaſt, on that Part of his or her Tract, which he or ſhe ſhall think moſt convenient or advantageous, or elſe to clear and drain three Acres of Swampy or ſunken Ground, or drain three Acres of Marſh, if any ſuch be within his or her Grant.

That for every Fifty Acres of Land accounted barren, every Perſon ſhall be obliged to put on his or her Land, within three Years after the Date of his or her Grant, three neat Cattle, which Number every Perſon ſhall be obliged to continue on his or her Lands, till three Acres for every Fifty be fully cleared and improved.

That if any Perſon ſhall take up a Tract of Land wherein there ſhall be no Part fit for preſent Cultivation without manuring and improving the ſame; every ſuch Grantee ſhall be obliged, within three Years from the Date of his or her Grant, to erect on ſome Part of his or her Land, one good Dwelling-Houſe, at leaſt Twenty Feet in Length, and Sixteen Feet in Breadth, and alſo to put on his or her Land, the like Number of three neat Cattle for every Fifty Acres.

That if any Perſon who ſhall take up any ſtony or rocky Grounds, not fit for Culture or Paſture, ſhall, within three Years after the paſſing of his or her Grant, begin to employ thereon, and ſo continue to work, for three Years then next enſuing, in digging any Stone Quarry or other Mine, one good and able Hand for every Hundred Acres of ſuch Tract, it ſhall be accounted a ſufficient Cultivation and Improvement.

That every three Acres, which ſhall be cleared and worked as aforeſaid, and every three Acres which ſhall be drained as aforeſaid, ſhall be accounted as ſufficient Seating, Planting, Cultivation and Improvement, to ſave for ever from Forfeiture, Fifty Acres of Land, in any Part contained within the ſame Grant; and the Grantee ſhall be at Liberty to withdraw his or her Stock, or to forbear working in any Quarry or Mine, in Proportion to ſuch Cultivation and Improvement as ſhall be made on the plantable Lands, or upon the Swampy or ſunken Grounds or Marſhes which ſhall be included in the ſame Grant.

That when any Perſon who ſhall hereafter take up and patent any Land, ſhall have ſeated, planted and cultivated or improved the ſaid Land, or any Part of it, according to the Directions and Conditions abovementioned; ſuch Patentee may make Proof of ſuch Seating, Planting and Cultivation or Improvement, in any Court of Record in the ſaid Province, or in the Court of the County, Diſtrict or Precinct where ſuch Lands ſhall be, and have ſuch Proof certified to the Regiſter and Office, and there entered with the Record of the ſaid Patent, a Copy of which ſhall be admitted on any Trial to prove the ſeating and planting of ſuch Land.

And whereas it may greatly contribute to the ſpeedy Settling of this His Majeſty's ſaid Province, to inform all Perſons of the Healthineſs, Soil and Productions thereof----I DO in this Proclamation further publiſh and make known, That the former Inhabitants lived to great Ages, his Majeſty's Troops, ſince their taking Poſſeſſion of it, have enjoyed an uninterrupted State of good Health; Fevers, which are ſo common during the Autumn in other Parts of America, are unknown here.-- The Winter is ſo remarkably temperate, that Vegetables of every Kind, are raiſed, during that Seaſon, without any Art.

The Soil on the Coaſt is in general Sandy, but productive with proper Cultivation.-----The Lands are rich and fertile in the interior Part of the Province, and on the Sides of Rivers, which are numerous-------Fruits and Grain may be raiſed with little Labour.------The late Inhabitants had often two Crops of Indian Corn in the ſame Year, and the Breeder here will be under no Neceſſity of laying up Fodder for the Winter, for there is at all Times ſufficient Quantity of Paſture to maintain his Cattle.

The Indigo Plant, remains unhurt for ſeveral Years, and may be cut four Times in a Seaſon. Wild Indigo is found here in great Abundance, which with proper Cultivation is eſteemed in the French Iſlands to be the beſt.

From the great Luxuriancy of all the Weſt-India Weeds found in the Southern Parts of this Province, it is not to be doubted, but that all the Fruits and Productions of the Weſt Indies, may be raiſed here, tho' either from the want of Induſtry in the late Inhabitants, or from the frequent Interruptions they met with from their Neighbours the Indians, no Improvement of that Kind was ever attempted; Oranges, Limes, Lemons and other Fruit, grow ſpontaneouſly over the Country.

This Province abounds with Mahogany and all kinds of Lumber, fit for Tranſportation, or Ship-building, and the Conveyance of the Commodities or Productions thereof, will be attended with little Expence, as there is Water-carriage every where.

The Rivers in this Province which are beſt known, are St. John's River, about Thirty-three Miles to the Northward of St. Auguſtine, St. Mary's River, about Forty Miles to the Northward of St. John's---The Muſqueto River, about Sixty Miles to the Southward of St. Auguſtine, running into the Gulph of Florida, much about the Place where the Current ceaſes to have any Effect. ---Big Savannah, about Twenty-four Miles Weſtward of Apalache, Little Savannah about One Hundred Miles Southeaſt of Apalache, Calaſahatche, about One Hundred Miles Southward of Little Savannah, the three laſt Rivers running into the Gulph of Mexico.

The principal Harbours yet diſcovered are, St. Mary's, St. John's, St. Auguſtine, Matanzas, Muſketoes, Melacomb, Hunda, Keyweſt, Tampaand, Apalache, of which no particular Deſcriptions can be given, as they have not yet been ſurveyed and ſounded.

Given under my Hand, and the Great Seal of his Majeſty's ſaid Province, this Thirty-firſt Day of October, in the Year of our Lord One Thouſand Seven Hundred and Sixty-four, and in the fifth Year of his Majeſty's Reign.

By his Excellency's Command, JAMES GRANT.

JOHN DUNNETT, Secretary.

LONDON, February 19.

Extracts from Col. Draper's Anſwer to the Spaniſh arguments, claiming the Galleon, and refuſing Payment of the Ranſom bills, for preventing Manilla from pillage and deſtruction.

The Spaniſh Arguments for refuſing payment.

THE Engliſh Generals, who made themſelves maſters of Manilla, propoſed, on the 5th of October, 1762, a capitulation to the Archbiſhop, who acted as Governor; by which they promiſed to preſerve the city from pillage, if the Governor and principal magiſtrates would conſent to, and ſign the articles of, the ſaid capitulation; which they were forced to do, being threatened to be put to the ſword, in caſe of refuſal.

Notwithſtanding this ſhameful capitulation, extorted and ſigned by means of violence and rigour, General Draper ordered or ſuffered the city to be ſacked and pillaged, for forty hours, by four thouſand Engliſh, who plundered it of more than a million of dollars.

Therefore the ſaid capitulation ought to be void, becauſe it was ſigned by force; and becauſe General Draper firſt violated and broke the capitulation, by permitting the city to be pillaged; conſequently, that capitulation only, which was propoſed by the Governor, accepted of, and ſigned by Admiral Corniſh, and General Draper, upon the ſeventh of October, ought to be conſidered and reſpected in this affair.

The firſt article of which grants to the inhabitants of Manilla, the peaceable and quiet poſſeſſion of all their effects; the fourth and ſixth grant them the liberty of commerce, under the protection of his Britannick Majeſty.

REFUTATION.

IT is a known and univerſal rule of war, amongſt the moſt civilized nations, that places taken by ſtorm, without any capitulation, are ſubject to all the miſeries that the conquerors may chuſe to inflict.

Manilla, my Lord, was in this horrid ſituation; of conſequence the lives of the inhabitants, with all belonging to them, were entirely at our mercy. But chriſtianity, humanity, the dignity of our nation, and our own feelings as men, induced us not to exert the utmoſt rigour of the poſſeſſion, againſt thoſe wretched ſuppliants; although my own Secretary, Lieut. Fryar, had been murdered, as he was carrying a flag of truce to the town. The Admiral and I told the Archbiſhop and principal Magiſtrates, that we were deſirous to ſave ſo fine a city from deſtruction, ordered them to withdraw, conſult, and propoſe ſuch terms of compenſation as might ſatisfy the fleet and army, and exempt them from pillage, and its fatal conſequences.

The propoſals they gave in, were the very ſame which the Spaniards moſt artfully call a ſecond capitulation; and were afterwards agreed to, and confirmed by us (with a few reſtrictions) but at that time were ſo unſuitable to their deſperate ſituation, that we rejected them, as unſatisfactory and inadmiſſible. As conquerors, we took the pen, and dictated thoſe terms of the ranſom which the Spaniards thought proper to ſubmit to; for they had the alternative, either to be paſſive under the horrors of a pillage, or compound for their preſervation; they accepted the latter.

The objection and pretence of force and violence may be made uſe of to evade any military agreements whatſoever, where the two parties do not treat upon any equality; for who, in war, will ſubmit to an inconvenient and prejudicial compact, unleſs from force? but have the Spaniards forgot their own hiſtories? or will they not remember the juſt indignation expreſſed againſt Francis the Firſt, who pleaded the like ſubterfuge of force and violence, to evade the treaty made after the battle of Pavia, and his captivity?

Should ſuch eluſive doctrines prevail, it will be impoſſible, hereafter, for the vanquiſhed to obtain any quarters or terms whatſoever; the war will be carried on uſque ad internecionem; and if a Sovereign ſhall refuſe to confirm the conditions ſtipulated by his ſubjects, who are in ſuch critical ſituations, the conſequences are too horrid to mention.

By the ſame fallacious ſophiſtry, a ſtate may object to the payment of the ranſoms of ſhips taken at ſea, and to contributions levied in a country which is the ſeat of war. But it is always allowed that, in ſuch caſes, a part muſt be ſacrificed to ſave the whole, and ſurely, when by the laws of war we were entitled to the whole, it was a great degree of moderation to be contented with a part.

The deſtruction that we could have occaſioned, would have trebled the loſs they ſuffer by the payment of the ranſom. The rich churches and convents, the King of Spain's own palace, with its ſuperb and coſtly furniture, the magnificent buildings of every ſort, fortifications, docks, magazines, founderies, cannon, and, in ſhort, the whole might have been entirely ruined, the Spaniſh Empire in Aſia ſubverted, and the fruits of their religious miſſion loſt for ever, together with the lives of many thouſand inhabitants, who were ſpared by our humanity. As a ſuitable and grateful return for this lenity, the Spaniſh memorial affirms, that after the capitulation was ſigned, General Draper ordered or permitted, the city to be ſacked and pillaged for forty hours together, by four thouſand Engliſh, who plundered it of more than a million of dollars.

As my own character, both as an officer, and a man of honour, is ſo wickedly attacked by this unjuſt accuſation, I muſt beg leave to ſtate the whole affair in its true light; and do appeal for its veracity to the teſtimonies of every officer and ſoldier, who ſerved in the expedition, and to all of the marine department.

We entered Manilla by ſtorm, on the 6th of October, 1762, with a handful of troops, whoſe total amounted to little more than two thouſand; a motly compoſition of ſeamen, ſoldiers, ſeapoys, Caffes, Laſcars, Topaſſees, French and German deſerters.

Many of the houſes had been abandoned by the frightened inhabitants, and were burſt open by the violence of ſhot, or exploſion of ſhells. Some of theſe were entered and pillaged. But all Military men know how difficult it is to reſtrain the impetuoſity of troops in the firſt fury or aſſault, eſpecially when compoſed of ſuch a variety and confuſion of people, who differed as much in ſentiments and language, as in dreſs and complexion.

Several hours elapſed, before the principal magiſtrates could be brought to a conference; during that interval, the inhabitants were undoubtedly great ſufferers. But, my Lord, this violence was antecedent to our ſettling the terms of the capitulation, and, by the laws of war, the place, with all its contents, became the unqueſtionable property of the captors, until a ſufficient equivalent was given in lieu of it. That ſeveral robberies were committed, after the capitulation was ſigned, is not to be denied; for avarice, want, and rapacity, are ever inſatiable; but that the place was pillaged for forty hours, and that pillage authorized and permitted by me, is a moſt falſe and infamous aſſertion. The people of Manilla, my Lord, have impoſed upon their Court, by a repreſentation of facts which never exiſted; and to make ſuch a groundleſs charge the reaſons for ſetting aſide a ſolemn capitulation, is a proceeding unheard of till now, and as void of decency as common ſenſe.

The following extracts from the publick orders, given out the very day we entered the town, will ſufficiently convince your Lordſhip of my conſtant attention to the preſervation of thoſe ungrateful people; who have almoſt taught me to believe, that humanity and compaſſion are crimes.

"Your Royal Parents remember no period of their lives too early for doing good, and when a few years ſhall call forth your virtues into action, your Royal Highneſs may perhaps, with ſatisfaction, reflect upon your faithful Antient Britons, thus laying themſelves at your feet."

The laſt advices from the Overhill Cherokees are of the 4th inſtant, and from the Lower Towns of the 14th, when ſome unpromiſing appearances, occaſioned by too much rum being carried into the nation, were entirely removed. Mr. HALL,

By reprinting the following PIECE in your next Paper, you will oblige many of your Readers.

WHILE ſo many prudent ſteps are taking by wiſe and good men, to decreaſe the expences of life, by laying aſide thoſe luxuries which a time of affluence and free trade introduced, I am ſorry to find that expenſive funerals ſtill continue among us, even though diſregarded by the neighbouring provinces. However much we indulge ourſelves in pride in life, death ſhould ſtrip us of it, and the leſs parade we make when our remains are conſigned to their native duſt, the leſs we proclaim our infamy and reproach, inaſmuch as every inſtance of mortality ſhould teach us, that the triumph of death over that body, which was once immortal, is owing to our having loſt our primitive innocence and integrity. Beſides what avails the momentary ſhow? it excites no ſuperior veneration for the memory of the deceaſed; it communicates no happineſs to the departed ſpirit, which has now took up its eternal abode; it affords no conſolation to the relatives, ſince even all this parade cannot recal the ſleeping dead, or convince them how much they bewail their loſs; but on the contrary prevents that which ought to be one of the moſt ſolemn monitors, to remind thoughtleſs mortals of their approaching diſſolution, into a mere piece of filly idle oſtentation. Some perhaps may plead, that it is neceſſary when good men die, as it is the laſt tribute we can pay to their memories; pray what reſpect conſiſts in covering a dead putrifying corpſe (now inſenſible of ſuch outward reſpect) with a ſumptuous pall, which ſix perſons are obliged to ſupport, and in having a train of relations clad in black to follow it to the grave? Surely to imitate their virtues, to mention their names with reverence, and to tranſmit their worth down to our children, will be more honourable and laſting monuments of their merit, and the friendſhip we bore them, than all the pride and pomp of the moſt coſtly funeral. But if the wearing of black tends to keep alive the eſteem we have for our friends, why will not tying a piece of crape round the arm, or ſome ſuch external badge of mourning, anſwer this purpoſe?---Such a practice methinks would be more conſiſtent with common ſenſe, and more ſuitable to the decent ſolemnity of a funeral. We hope thoſe inhabitants of Philadelphia, whoſe fortunes will admit, and whoſe ſtations ſeem to require this expence, will begin this cuſtom; eſpecially when they conſider how much their example will affect their inferiors, who are fond of ſupporting this outſide grandeur, though conſcious, at the ſame time, they will ere long want thoſe ſeventy or hundred pounds they ſo fooliſhly laviſh away, in this unneceſſary conformity to faſhion.

Containing the Freſheſt Advices, Foreign and Domeſtic.

By Captain Hardcaſtle, arrived here from Liverpool, and the Halifax Packet, arrived at New-York from Falmouth, both in ſhort Paſſages, we have the following Advices, viz.

GENOA, February 9.

THEY write from Corſica, that the Marquis of Marbeuf, the French Commander, had diſpatched Captain Buttafow to Paſcal Paoli, to propoſe to him an accommodation; but ſhould this negotiation ſucceed, it is not imagined it will laſt long. We have no more than four companies in garriſon in Macinaggio, which only wait for the determination of the new Council, whether that fortreſs is to be deſtroyed or not. It is reported, that tho' the French behave on the iſland as a neutral power ſhould do, yet the malecontents are ſo apprehenſive of being reduced, that they have ſent Deputies to the Grand Signior, with an offer to become ſubjects to him, if he will undertake to protect them.

Dreſden, Feb. 15. M. de Buch, Envoy Extraordinary, from the King of Pruſſia, who ſet out the 27th of laſt month, on his return to Berlin, was followed the 4th inſtant by the Secretary of Legation from his Pruſſian Majeſty. The motive of their departure is differently talked of, and perhaps not known, but thoſe who are moſt likely to be informed of it ſay, that there is a coldneſs between the two Courts.

Vienna, Feb. 16. All the regiments, as well cavalry as infantry, are ordered to be compleated by the beginning of April.

Paris, March 15. By ſome letters in town from ſome of the King's troops in Corſica, it ſhould ſeem that unleſs ſome ſudden change happen, which no human prudence can foreſee, it is in vain for the Senate of Genoa to expect to reduce thoſe iſlanders to their ſubjection.

Cadiz, March 5. Letters from Gibraltar, of the 2d of this month, bring advice, that the King of Morocco is going to declare war againſt the Danes. The Jew Sumbol has wrote on this occaſion, and by order of that Prince, to the Chriſtian Merchants at Saffy and Saliee, a letter dated the 23d of Jan. laſt, of which the following is the tenor:

"His Majeſty the Emperor, my maſter (whom God preſerve) has ordered me to write to you, that on the receipt of this you may make known to all thoſe of the Daniſh nation amongſt you, that his intention is that they ſhould retire from the country under his dominion, with their effects, before the month of May next, and that, in conſequence, they take their meaſures for regulating their accounts, and ſettling their affairs, before that time. This letter is to ſerve for advice to you and them, ſo that there may be no pretence of ignorance. His Imperial Majeſty (whom God preſerve) orders you to publiſh, in his name, the contents of the preſent to all the Danes in your city, and to anſwer me on the back of this. (Signed) SUMBOL."

Madrid, March 12. The reſult of the council of war, which ſat to enquire into the conduct of the officers employed in the defence of the Havannah is, that Don Juan de Padro, Governor of the Havannah, and of the iſland of Cuba; the Marquis de Real Tranſporte, Commander in chief of the fleet there, and Member of the council of war; the Count de Superunda, Lieutenant-General and Preſident of the council of war; and Don Diego Tabares, a Member of the ſaid council, ſhall be deprived of all their military employments, and be baniſhed 40 leagues from court for ten years, and that their effects ſhall be employed to make ſatisfaction for the damages occaſioned by the loſs of the abovementioned place, both to his Majeſty's finances, and the commerce of his ſubjects. The chief engineer is deprived of his military employments for two years, and to be baniſhed during that time 40 leagues from court; the ſecretary of the council of war is declared to be unfit for that employment for the future, on account of his want of exactitude in minuting the ſeveral proceedings of the ſaid council.

LONDON.

February 23. Private letters from Leghorn mention, that the Malecontents of Corſica, finding their repeated Manifeſtoes of no effect to reſcue them from the tyranny of the Genoeſe yoke, had formed a reſolution to implore the aſſiſtance and mediation of the Sublime Porte, and for that purpoſe two of their leading Members were actually embarked for Conſtantinople.

It is ſaid the national ſettlement on a certain great perſonage, will be augmented this ſeſſions 10,000 l. per annum.

They write from Holland, that by late advices received from India it appears, that the army of Coſſim Ali Cawn has been almoſt totally deſerted by the Dutch and other European Officers and private men, who were induced to ſerve that tyrant from motives of profit. Theſe letters add, that from the vaſt preſents given the eaſtern Monarchs for protection or alliance, the tyrant's treaſure has been drained to the bottom.

This week diſpatches were ſent off to Sir George M'Cartney, his Majeſty's Envoy at the Court of Peterſburgh, ſaid to contain remonſtrances to the Empreſs againſt the late excluſion of the Britiſh Merchants in the ſalt-petre trade, in favour of the King of Pruſſia.

It is ſaid, a fleet will be ſpeedily deſtined up the Mediterranean, our worthy neighbours the French intereſting themſelves in a particular manner about the affairs of Corſica.

Private letters from Portugal adviſe, that Don Lewis da Cunha, his Moſt Faithful Majeſty's Miniſter at Liſbon, will admit of no treaty by which the Engliſh nation may enjoy, on any terms, an excluſive trade to the Portugueſe Settlements in the Brazils.

March 5. Private letters import, that orders have lately been ſent to Toulon, to equip every ſhip of war in the harbour for ſea, with the utmoſt expedition.

Letters received from Copenhagen adviſe, that the court of Denmark had juſt ordered a conſiderable augmentation to be made in their marine.

It is confidently ſaid the Right Hon. Sir Edward Hawke will ſoon take on him the command of an important naval expedition to the Weſt-Indies.

Letters from Amſterdam ſay, that the merchants there, and in Rotterdam, who have any concern in the Dutch Eaſt-India Company, are in great pain for Batavia, which they fear may ſoon fall a ſacrifice to France or Spain, by their ſecret embarkations of troops for that part of the globe.

Private letters from Madrid adviſe, that a deſign has been formed at court, to cut off the uſual communication with the Engliſh garriſon of Gibraltar on the land ſide, but from what motives is not known.

We hear a regiment of marines will ſpeedily embark for Jamaica, to be added to the military eſtabliſhment thereof, and for the better ſupplying his Majeſty's ſhips of war on the Weſt-India ſtation with freſh detachments from that uſeful corps.

Authentic accounts have been this week received, of the French in Corſica having, for ſome time paſt, been employed in ſounding the coaſts, and examining into the ſtate and condition of all the principal ports and harbours in the iſland.

This morning was held a cabinet council at St. James's, ſaid to be on the ſubject of ſome late diſpatches from the republic of Genoa.

On Thurſday an expreſs, ſaid to be of great importance, and more particularly relating to the naval department upon that ſtation, regarding our ſituation in the Bay of Honduras, was diſpatched to the iſland of Jamaica.

Within a few days ſeveral expreſſes have been received by the way of France, relative to the critical ſituation of affairs between the Genoeſe and Corſicans.

The report gains credit, that an Engliſh ſquadron will ſpeedily viſit the Corſican ſeas.

It is ſaid, that the garriſon of Minorca will be ſpeedily reinforced with the addition of another regiment of foot.

March 9. They write from Liſbon, that a Courier arrived there the 10th of February laſt, with ſome diſpatches from Don Ayres de Saa Mello, the Portugueſe Miniſter at the Court of Madrid, which were judged to be the more important, as the ſame day two diſpatches were ſent off, within a few hours of each other, for England.

Letters from Dunkirk ſay, that certain letters and plans, deſcribing the preſent ſtate of the harbour and fortifications of that place, having been intercepted at the poſt-houſe, and which were ſaid to be done by an Engliſhman, had been the occaſion of the late orders for every Britiſh ſubject to depart the town; and that very ſtrict ſearch had been made after the author, but in vain.

We are informed, by ſome letters lately arrived from the Weſt-Indies, that the French inhabitants of Hiſpaniola have voluntarily made ſome offers of becoming ſubjects of the Crown of Great-Britain, being heartily tired of their preſent yoke.---How practicable this may be we know not, or what the conſequence would be, but it is eſteemed the beſt land, and beſt cultivated, of any part of the Weſt-Indies.

They write from Breſt, that orders had juſt been received from Court, to diſcharge all the Britiſh ſhip-carpenters employed in the King's docks in that port.

Private letters from the Hague mention, that orders had juſt been tranſmitted to the Dutch Governors of Coracoa and St. Euſtatia, to put both thoſe iſlands under martial law, by muſtering the militia, and every inhabitant capable of bearing arms, as in time of war.

We hear diſpatches have this week been received from France, with aſſurance, that the men of war and land forces, now getting ready to depart for the Weſt-Indies, are only to quell certain dangerous inſurrections of their own ſubjects in the iſland of Hiſpaniola.

By the laſt mails there is advice, that very large orders are now lying in moſt ports in the Baltic, to buy up the naval ſtores for the uſe of the French marine.

It is confidently ſaid our Court will, by no means, interfere in the preſent American diſputes between France and Holland.

It is ſaid a memorial will ſpeedily be ſent to the Court of Verſailles, to know on what account the Britiſh ſubjects have been obliged to leave Dunkirk.

It is ſaid ſome more Dutch men of war will ſpeedily be put into commiſſion.

It is ſaid orders have this week been tranſmitted to Ireland, to ſtop the ſailing of ſeveral large tranſports, which were loading with ſalt proviſions for the uſe of the French Auxiliary troops in Corſica.

It is reported, that beating orders will ſoon be iſſued out for volunteers, to ſend on board a ſtrong ſquadron, which is to ſail for the Weſt-Indies.

We hear a frigate has this week been appointed to ſail immediately for Africa, with ſome important inſtructions for Commodore Graves, and that ſhe will ſoon be followed with ſome more ſhips of war, with land force and ſtores on the Government's account.

We hear from Portſmouth, that by different experiments lately made there on American oak, it has been found quite as durable and proper for ſhip-building as Engliſh; and, 'tis ſaid, the uſe of it is going to be introduced in all the dock-yards.

It is ſaid 70,000 l. is the ſum agreed to be given to the Duke of Athol, for giving up his Charter of the Iſle of Man, and that the Proprietors of lands, are to enjoy their rights and privileges as Lords of Manors.

But we hear that the intended purchaſe of the Iſle of Man to the Crown, will not diveſt the preſent Proprietor from ſtill retaining the Sovereignty thereof in civil matters, but only regards the veſting a power in his Majeſty, to eſtabliſh regular Cuſtom-houſes in the principal Ports of that Iſland, and to take ſuch other diſpoſitions, with regard to the commercial revenues, as will effectually prevent the future injurious practice of harbouring Outlaws and Smugglers.

The people in the Iſle of Man have ſix months allowed them to diſpoſe of their ſtock in hand, and all after to be ſubject to the cuſtomary duty as in all parts of England, and under the ſame regulations and reſtrictions, for which purpoſe an Exciſe office and Cuſtom-houſe will be immediately eſtabliſhed.

March 12. Private letters from Paris mention, that a repair of the Baſon of Cherburgh, which was deſtroyed by the Engliſh in the year 1758, is this ſummer to be vigorouſly proſecuted, under the direction of the beſt Engineers of France.

They write from Marſeilles, that by a French bark arrived there from Baſtia, the malecontents of Corſica are ſaid to be 30,000 ſtrong in the Heights of Nebbio, and were in very high ſpirits, having lately received a large ſupply of ſhoes, and other neceſſaries, which they began to be greatly in want of; though the quarter from whence theſe reſources are drawn can only be gueſſed at.

Advices have juſt been received from Madrid, that the Spaniſh Governor of Jucatan is ordered home, on account of ſome late irregularities towards the Engliſh Logwood Cutters at Bacaloa in Honduras, which were in contradiction to his Moſt Catholic Majeſty's expreſs orders, ſent over in June laſt.

Saturday laſt diſpatches were ſent off to the Hon. Cadwallader Colden, Eſq; Governor of New-York, ſaid to contain ſome further reſtrictions to the exportation of iron ordnance to the French and Spaniſh ſettlements in the Weſt-Indies.

We are credibly informed, that expreſs orders were laſt week diſpatched to the Britiſh Commanders in the Weſt-Indies, by no means to encourage the ſubjects of France, however the Politicks of other Courts may have eſtabliſhed the precedent, in throwing off their allegiance to their lawful Sovereign.

It is whiſpered that a Royal Perſonage will ſhortly have the command of a formidable ſquadron up the Baltic, and will pay a viſit, before his return, to the Court of Copenhagen.

We are told that there are conſiderable wagers held, that Mr. Wilkes will return to England before the riſing of the parliament.

Yeſterday a rich canopy was fixed up at the upper part of the ſcaffold in Weſtminſter-Hall, under which the Lord High Steward is to ſit during the trial of Lord Byron, which comes on this day.

We are informed ſome remonſtrances have very lately been received from the Court of Madrid, concerning the illicit commerce carried on by the Engliſh to the Spaniſh ſettlements in America; which, if continued, may in the end produce a ſerious quarrel between the two crowns: His Catholick Majeſty's revenues having already been computed to ſuffer a loſs of near a million of dollars on that account.

This morning, about 9 o'clock, Lord Byron ſet out from the Tower, and went over St. George's Fields to Weſtminſter-Hall, eſcorted by a party of the Foot-Guards, and a great number of Warders.

We hear the Council aſſigned his Lordſhip are the Honourable Mr. Yorke and Mr. Wedderburn.
